## INTRO

*Free-spirited, love-inspired  
and elegant.*

Unusual, relaxed and glamorous, this collection brings together luxury elements and bohemian aesthetics!

This season Olvi's Bridal embraces the bohemian trend more than ever... with signature elements and silhouettes inspired by this movement. As we called it, the collection becomes a celebration of Bohème.

La Vie Bohème is both romantic and daring, simple yet splendid. The collection is created with abundance of fabrics and elements, used to create unique pieces. The richness of details is balanced with light fabrics, easy to wear styles that offer freedom for the female body.

The collection carries both the sparkles of beading and sequin, the lightness of sheer tulle, comfort of lace, lustrous feeling of satin and much more!

The elegant gowns are complemented with two-piece styles that are created for the modern bride.

La Vie Bohème combines in itself the free spirit of the Bohemian, and the elegance of the modern day bride.

\* We work with French lace that stretches and shapes itself to the contour of the body. Therefore the size of the measurement needs to be smaller to achieve the perfect fit.

\* This measurement is an advice to determine the Olvi's size, based on body measurements.

No rights can be derived from this advice, nor can any claim arise from it.

## How to measure

1. **Bust** – measured horizontally, relax arms at sides and measure across the fullest part of the breast.

2. **Waist** – measured horizontally, this is the smallest part of the waist. Make sure to measure slightly loose.

3. **Circumference of the hips** – measured horizontally, find the widest part of the hips, measurement has to go past the two hipbones.

4. **Sleeve length** – measured from the armpit to the end of the sleeve.

5. **Length** – measured vertically along the side seam from the middle of the armpit down to the hem of the garment.
